

## WE'RE HIRING: UX/UI Designer

### ABOUT US

At AiRE, we design, develop and deliver advanced software for the real estate industry, via our digital employee platform named RiTA. Using artificial intelligence and automation, we help agents and business owners enjoy a more efficient, enjoyable, and hyper-personalised service experience for their customers.

This is your chance to work in a fast-growing scale-up with a flexible working culture (an option to work from home) and a range of growth opportunities.

### WHY WE'RE HIRING

Our business is rapidly growing, with customers in Australia and New Zealand and plans to extend our reach even further. With this growth, we are looking for a new UX/UI designer to join our team to help expand the capabilities of our platform.

### ABOUT THE ROLE

In this newly created role we are looking for a self-motivated, curious individual to work closely with our Product Owners, Engineers and Designers to create compelling experiences for new product features across both our web and upcoming mobile application, while also looking to improve existing platform experiences.

As a UX/UI designer you will be the user advocate, conceiving, designing, and prototyping intuitive and delightful interfaces and experiences on projects ranging from wireframes and individual components to full high fidelity designs in collaboration with our talented design team.

#### Duties and Responsibilities

- Develop sketches, wireframes, prototypes, high fidelity mockups, and design specifications
- Use customer interviews, research, testing and analytics to understand user behaviour and inform design decisions
- Engaging with our users, conducting interviews to determine insights and communicating these insights to the wider product team
- Present design solutions addressing both customer and business perspectives to stakeholder groups
- Collaborate with the design and engineering team to create and maintain well-documented design systems

## ABOUT YOU

### The Ideal Candidate Should

- Have 2+ years of UX / UI Design experience with a strong portfolio demonstrating experience in experience focused solutions for digital products
- Embrace a collaborative approach to solving difficult design
- Be comfortable with feedback: giving and receiving feedback and critique is part of your creative process.
- Be curious and inquisitive, and not afraid to ask lots of questions to ensure you have considered all variables when solving a problem.
- Love finding simplicity - making the complex simple through a deep understanding of the problem at hand.
- Love working in end-to-end Product Design and are T-shaped with your sweet spot in UX and user experience

### Desirable for the Role

- Experience within the Real Estate, Telemarketing
- Experience in Figma & UXPin
- Worked in an agile environment
